2. (Internal Use Only - JSW) Carl Marcy, Senate Foreign Relations Committee staff, telephoned stating that Senator Fulbright had refused a telegram from Moscow but had wished Marcy to attempt to check it out with the Agency. Apparently [redacted] had attempted to call in the telegram stating it was from Moscow Radio and giving [redacted]. Marcy stated that he had not checked with State Department on this and I indicated we would look into it.

[redacted] SR. was contacted and will check as far as he can on this.

3. (Unclassified - JSW) Paul Borel telephoned indicating that the withdrawal of CIA support from the Library of Congress was causing great concern to the Librarian, Mumford, who has indicated he is going to take up the matter with Representative Clarence Cannon. He had pushed Borel to give assurance that Mr. Dulles personally had approved of the action. I agreed with Borel that he should forward the matter through the DD/I for DCI attention in view of our relationship with Mr. Cannon.
